

2. God Made The Sunshine

Therese Goodwin. Used by permission

God made the sunshine
round circle
God made the rain
rain drops fingers
God made the night
sleep
And God made the day
hands upturned open
God made the caterpillars
"hump" finger along
And the bumble bees
wiggle fingers both hands circular motion
But best of all and most of all
clap
God made me!
point to self

God made the earth
circle
And God made the sky
wave hands overhead
God made the birds
flap arms
That fly so high
God made the fish
palms together wiggle hands
That swim in the sea
But best of all and most of all
clap
God made me.
point to self
Yes best of all and most of all
clap
God made me
point to self
